

Line-Cable

mfe reference line

Product-Overview

Line-cable *mfe* reference line

**That your system also sounds good,
requires a good power supply!**

**This power cable made of pure copper not only impresses
by its optical design, but is also excellent in terms of sound.**

**The cross-section of 3 x 3 mm² guarantees
the loss-free power supply of your connected devices.**

**The shielded and especially multi-core (7-pin) design allows the assembly
with Schuko connectors, PowerCon connectors,
as well as e.g. with 3- and 5-pole CEE connectors.**

The connectors are mechanically and electrically on high-end level!
